

Allied Tanks Of The Second World War Images Of War

The Definitive Guide to Allied Tank Warfare

Allied Tanks Of The Second World War Images Of War is the definitive guide to Allied tank warfare during World War II. This comprehensive volume features over 200 rare and unpublished photographs of Allied tanks in action, providing a unique and intimate look at the development and deployment of these powerful machines.

The book begins with a detailed overview of the development of Allied tanks in the years leading up to World War II. It then examines the major tank battles of the war, from the early campaigns in North Africa and Europe to the final battles in the Pacific. Throughout, the book provides a wealth of technical information on the different types of Allied tanks, their strengths and weaknesses, and their impact on the course of the war.
