Written by experienced nurses and healthcare professionals, this book offers a practical and evidence-based approach to geriatric nursing. With its concise and accessible format, Nursing Older People at a Glance empowers nurses to deliver high-quality, compassionate care to older adults.

## Key Topics Covered

- **The Aging Process and Common Health Conditions:** Understand the physiological, cognitive, and psychological changes associated with aging, and identify common health conditions in older adults.
- **Assessment and Care Planning:** Learn effective strategies for assessing older adults, developing comprehensive care plans, and monitoring outcomes.
- **Pharmacological and Non-Pharmacological Interventions:** Explore the appropriate use of medications and non-pharmacological interventions for managing pain, delirium, and other conditions in older adults.
- **Nursing Care in Different Settings:** Gain insights into providing care for older adults in various settings, including hospitals, long-term care facilities, and home healthcare.
- **Ethical and Legal Considerations:** Address ethical and legal issues frequently encountered in geriatric nursing, including consent, capacity, and end-of-life care.

### **Benefits of Reading Nursing Older People at a Glance**

- **Enhanced Knowledge and Skills:** Acquire a comprehensive understanding of the complexities of geriatric care, enabling you to provide tailored and effective care to older adults.
- **Improved Patient Outcomes:** Utilize evidence-based approaches to improve the health and well-being of older adults, leading to better patient outcomes and enhanced quality of life.
- **Increased Confidence in Practice:** Gain the confidence to navigate the unique challenges of geriatric nursing and provide compassionate and competent care.

- **Professional Growth and Development:** Advance your nursing career by specializing in geriatric care, opening up opportunities for leadership, research, and advanced practice roles.
- **Improved Care for Our Aging Population:** Contribute to the collective knowledge and skills base of healthcare professionals, ensuring that older adults receive the best possible care as our population ages.

### **Target Audience**
