The book is divided into three parts:

### 1. **Part 1: The Foundations of History Education**

This part of the book provides an overview of the history of history education, the different theories of history, and the different approaches to teaching history. It also discusses the importance of historical thinking and the role of technology in history education.

### 2. **Part 2: Teaching History in the Classroom**

This part of the book provides practical strategies for teaching history in the classroom. It covers a variety of topics, including lesson planning, assessment, and differentiation. It also provides guidance on how to use primary and secondary sources in the classroom.

### **3. Part 3: Professional Development for History Educators**

This part of the book provides guidance on how to continue your professional development as a history educator. It covers a variety of topics, including attending conferences, reading professional journals, and participating in online communities.

Teaching and Learning in History is a comprehensive and up-to-date guide for history educators. It is a must-read for any educator who wants to improve their teaching and help their students achieve success.
